

MIN-GUIDE ANNUAL CONFERENCE 2018

11-12 December, Brussels

The **Annual Conference 2018** will be the **final conference of the MIN-GUIDE project**. The Conference will host up to 200 participants from all over Europe, in order to exchange knowledge, information and experiences.

The Annual Conference will provide a platform for networking and community building, allowing participants to make use of an informal meeting space to exchange with peers and stakeholders from related areas and communities.

Supporting Europe's transition to a **Circular Economy** requires concerted action from both an innovation and mineral production perspective. The MIN-GUIDE project has been following this ambition during the last two years by investigating **Europe's sustainable mining innovation trends** and how to foster them through an **effective policy framework**.

The conference will feature:

- ▶ A multi-stakeholder platform for exchange;
- ▶ Keynote presentations;
- ▶ Interactive discussions on project outcomes;
- ▶ Recommendations for Circular Economy on:
 - ▶ Mining value chain innovations,
 - ▶ The role of policy for innovation transfer,
 - ▶ Minerals policy governance for effective policy delivery,
 - ▶ Requirements for minerals production data systematisation and standardisation.
